View of Statue in Stoddard

from 35 mm Kodachrome by Dr. James M. Faulkner

This is the legend carved in the granite statue in Dr. Faulkner's picture:
"In memory of the men of Stoddard who served as soldiers and sailors
in all American wars.
Erected by James H. Hunt, Lt. Co. G, 14th Regt. N. H. Vols. 1862-65
1917"

SELECTMEN'S NARRATIVE

In this town report, the officials of the Town of Stoddard have strived to present a concise picture of the workings of this small Republic. At no extra cost to the taxpayer, we have endeavored to give you a report that is more enjoyable, as well as easier to read and understand, that you may be better able to judge how the financial affairs of the town are being administered. Also, the following chit-chat will give an idea of work accomplished and of that to be accomplished.

The town beach and facilities at Island Pond are heavily used and well kept through the generous help of neighboring summer residents.

The town beach or parking area at Carr's Landing on Highland Lake has come a long way, but it can stand a great deal more improvement.

T(own) R(oad) A(id) money, of which the town furnished $235.32, and the State $1,568.81, was laid out on the North side of the Granite Lake Road. Another year these funds will probably be used on the Shedd Hill Road.

Our road agent has received much favorable comment from our loyal summer citizens on the excellent condition of his town roads.

Last year, insurance on the town hall was substantially increased and we feel, that in the light of present-day replacement costs, perhaps all town buildings should be checked for proper insurance coverage.

There have been several unsuccessful attempts to organize town beautification groups, particularly regarding town property. This is an item that can well bear thought for the future.

The Stoddard Library is faithfully served by its trustees and Librarian. It is truly regrettable that this fine institution does not see more use other than as a meeting place for selectmen and winter church services.

A town without young people is a dead town -- we are fortunate in having 4-H and church groups that offer attractive community projects to interest our youth.

An important item that may arise in the near future is the problem of one-room school houses versus consolidated schools. There is a fallacious argument that the consolidated school is less expensive. This is absolutely false, as many communities have discovered too late. Another argument is the better physical plant opportunities offered in larger schools. Granted, but these advantages can never offset less tangible but more important advantages of better character building offered in the one-room school. The one-room school has demonstrably proved its ability to increase the child's capability for responsibility, mature emotions, spirit of cooperation in work and play, especially in groups of mixed ages and capabilities and, in fact, the heightening of all those characteristics that help mold the American backbone. Post World War II statistics showed that students from elementary parochial schools and rural one-room schools made the best academic showing upon entering secondary schools. One-room schools are becoming a rarity in N. H., but that does not signify they are not adequate. Quality seems ever a minority production.

We feel that perhaps the one most encouraging accomplishment by the town the past year was the purchase of a new 4-wheel drive, 500 gallon capacity fire engine. This sturdy, powerful, complete engine has been rated as the finest in its class in New England, according to the fire underwriter who put this machine through its acceptance tests with flying colors. The people of this community and our summer guests can well feel proud of Stoddard's physical fire plant. When the fire department obtains a first-rate resuscitator, we will be second to no one in equipment for emergency undertakings. However, we need more and constantly more awareness of other needs for the protection of all Stoddard.

Last June, when a member of the N. H. Board of Underwriters visited Stoddard, he surveyed our fire department. He stated that with three or four more steps, the Town of Stoddard would be in a position to apply for a substantial fire insurance reduction for its taxpayers. We have been assured by insurance people that this is possible. It is our hope that the deficiencies indicated will be corrected at our 1956 annual town meeting.

A special meeting was held in June regarding appropriation of money to build a water hole in the upper village. The voters' apathy was shameful, as their attendance did not come within a fraction of the legal quorum necessary to transact business.

As required by law, every seven years, Stoddard selectmen perambulated or "ran" the Stoddard-Gilsum town line with the selectmen of Gilsum, thereby reestablishing and re-dating the markers that designate these town lines. The Stoddard-Washington town line was also due for perambulation this year of 1955, but due to weather and other infirmities, the job must be postponed to 1956. Another uncompleted job was that of selling town lands acquired by tax deed. This job was not stipulated on a time basis -- we have to locate the land parcels before they can be sold.

We have tried to meet the wishes of the voters as indicated at the annual town meeting, and with an eye to improving Stoddard for the future. We have tried to hold our various departments within appropriations. However, due to increased costs in some case, plus the unusual needs of our re-designed fire department, some budgets crept over appropriations.

It must be apparent to all but the very newest in this area the tremendous rate at which Stoddard has developed in these post World War II years. The building of new summer cottages along all three of our biggest lakes amounts to a boom. We are primarily a resort town, and it would appear there is more to come,. Apparently we are reversing the adage that "A town prospers in direct proportion as its citizens prosper."

We solicit the constructive criticism of our townspeople and out-of-town sojourners. If problems arise -- and we realize that inequities will exist even in a Utopia - - we invite your inquiries and hope that the oft-familiar barrier between the Board of Selectmen and the taxpayer will thereby be breached. We invite your help in making Stoddard a happy, healthy place to live and to play.

REPORT OF TRUSTEES OF TRUST FUNDS

The Trustees were more successful this year in getting labor for work in the Cemeteries and were able to get much of the work done than has been the case during the past several years. It is hoped that 1956 will see most, if not all, of the necessary work accomplished.

The burial plots and the walks in the New Cemetery Addition have been staked out and it is the intention to seed the plots, gravel the walks, and build the gates next year; labor and our finances permitting. Eight burial plots have been sold.

The following is a summary of the expenditures on the Cemeteries during the year:

Distribution

Old Cemetery	$ 30.00
New Cemetery and Addition	133.57
Stevens Cemetery	none
Robb Cemetery	75.00
Memorial Day Flowers (All Cemeteries)	15.00

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Stoddard:

It is a pleasure to have the opportunity to present my second annual report for your consideration.

As the one-room schools in New Hampshire continue to diminish in number, it is logical for the citizens of this community to ask, how long shall we and how long can we continue to operate our one- room unit.

Stoddard should continue to operate their one-room school as long as there is a desire on the part of the Citizenry to do so. It appears to me that the citizens of Stoddard take a considerable amount of justifiable pride in their school and as long as that continues there appears no reason for discontinuance.

There are three factors which may have some bearing on how long Stoddard can continue to operate however. They are: increase cost of operation, teacher shortages and pressure from within and outside the community.

Although costs of operation have increased and seem destined to continue to do so. I do not believe them to be out of line with rising costs for other services.

The teacher shortage may be our greatest problem as the years go by. There just aren't enough teachers to meet the requirements. Practically no one is training to accept the responsibilities of a one-room unit and we are very close to the end of our ability to recall ex-teachers back into the profession.

There has been, and will continue to be, pressure from the Colleges and professional organizations, and gentle nudging from the State Department of Education to eliminate small educational units. Their arguments are sound and logical and there are some citizens in every community who share their feelings. However, there are many who are for the continuance of the small units whose arguments are equally sound and logical. Therefore it seems easy to conclude that pressure is not a very great factor in determining whether or not to join the forces of consolidation.

The Stoddard school has enjoyed a fine year. Mrs. Olive Fullam continues as teacher and the progress of the pupils appears to be adequate if the success of our graduates in secondary school is any criteria. The reports received directly from the receiving schools are quite satisfactory.

The physical condition of the school plant is of some concern as is the playground area. Both factors should be investigated and adequate changes made to remedy the problems.

I have enjoyed a most happy relationship with all the people with whom I have come in contact relating to the Stoddard schools. I wish to express my appreciation to them for making my work enjoyable.

Respectfully submitted,

Norman R. Hartfiel
Superintendent of Schools
